Faisal Alhuzali

Taif | **0580408646** | **faa.huzli@gmail.com** | **linkedin.com/in/faisal-alhuzali**

Objective

Computer Science undergraduate seeking a co-op to apply skills acquired in Dart, web development (HTML, CSS, JavaScript), Python, AWS cloud solutions, and DevOps practices. Interested in contributing to innovative software projects while gaining hands-on experience with cross-platform and cloud technologies.

Experience

Panda | Cashier   **08-2015 to 09-2015**

   Handle payments, assist customers, and maintain accurate transaction records.

Al Khobar Fingerprint | Mobile Software Technician   **2017-2018**

   Diagnose and troubleshoot hardware and software issues on mobile devices.

Education

Taif University, CIT   **Expected Graduation: Aug 29, 2025**

Major: Computer Science

Skills & abilities

- **Programming Languages**: Python, JavaScript, SQL
- **Web Development**: HTML, CSS, JavaScript
- **Cloud Computing**: AWS (EC2, S3, Lambda)
- **Mobile Development**: Dart/Flutter (beginner)
- **UX Design Tools**: Figma (used in HCI projects)
- **Soft Skills**: Critical Thinking, Collaboration, Problem-Solving, Creativity

Related Courses

Web Development	Database Systems (SQL)	Software Engineering
Computer Networking	Data Structures & Algorithms	Cloud Computing
Human-Computer Interaction	Game Designing	

Projects

Personal Portfolio Website
falhuz.github.io/portfolio.html

- Designed and developed a responsive personal portfolio using **HTML, CSS, and JavaScript**
- Showcases projects, certifications, and contact information with an accessible, modern UI
- Hosted on GitHub Pages and uses Git for version control
- Highlights skills in front-end development, design, and personal branding

HCI Triangle Classification Tool

- Created in the **Human-Computer Interaction** course using **Figma** and front-end technologies
- Designed a simple, intuitive interface to allow users to input triangle side lengths
- Implemented logic to classify triangles as **equilateral**, **isosceles**, or **scalene**
- Emphasized usability, visual clarity, and real-time feedback in UI/UX design
